

Army Solutions

Innovating readiness to help the Army meet today's people, readiness, modernization, and adaptation challenges.

Amentum provides a complete range of maintenance, sustainment, operations, and training solutions to create enduring value for the Army. Our high performing teams quickly organize and deploy innovative workforce, materiel, and technology solutions wherever needed.

We are the single largest aviation services provider for the U.S. Army, U.S. Navy, U.S. Coast Guard, and the U.S. Department of Homeland Security. Throughout our 116-year history of partnership with the U.S. Army, Amentum is committed to soldier and unit readiness and stands ready to support in all domains... land, air, sea, space, and cyberspace.

Expertise

- Extensive experience on 200 different aircraft type/model/series, including fixed and rotary wing, manned and unmanned, airlift, trainer, fighter, bomber, attack, utility, cargo, ISR, and VIP aircraft
- Broad experience in base operations, life support, ground vehicle and equipment maintenance, and training to meet classified and unclassified requirements

Operational Highlights

- 100 percent of the fielded Army Aviation tactical helicopter fleet supported at numerous locations worldwide by the Aviation Field Maintenance team on AFM East/West
- 30,000+ helicopter and fixed wing aviators trained for the Army, Air Force, and allied countries – including all Army introductory flight training at Fort Rucker since 1989
- Extensive experience in maintenance, logistics, and training on more than 200 different vehicles, including tanks, MRAP family, MTV family, HTV family, tractors and dozers, fuel support equipment, loaders and handlers, lifts, and excavators
- 260,000+ square miles of test and training ranges operated – the most of any contractor in the world
- 4,500+ different airframes maintained/modified
- Earned multiple AAAA Materiel Readiness Awards for a Contribution by a Major Contractor

Aviation (Manned & Unmanned) Solutions	Ground Services & Smart Sustainment	Advanced Testing & Training Support
<ul style="list-style-type: none"> • Field or sustainment level maintenance • Rotary wing reset programs • International aviation development and sustainment • Deployable contractor field teams • Flight and maintenance training • Aerial firefighting • Aero-medical evacuation • AS9110 Certified 	<ul style="list-style-type: none"> • Equipment maintenance services across various platforms • Supply chain management, planning, and procurement • Range and facility operations • Base, airfield, and facilities construction and operations • Comprehensive mission support and life cycle planning • Equipment and supplies pre-positioning and maintenance 	<ul style="list-style-type: none"> • Test and Evaluation • Command and control support • Quality Control • Systems engineering • Cyber mission analysis • Live, virtual, constructive training and course development • Live-fire synthetic environment weapons as a sensor training

Key Programs

Army Field Maintenance (AFM) East and West

Amentum provides aviation field and sustainment level maintenance support, aircraft modifications, and other logistical services to Army Aviation customers worldwide.

- 99%+ customer product quality rating
- Aviation management toolset offers access to near real-time data, enhancing forecasting, prioritizing, and management of mission sets, personnel, workloads, costs, and production

Peshmerga Foreign Military Sales (FMS) Multi-Platform Vehicle Program (MPVP)

Amentum provides contractor technical support, logistics support, and on-the-job maintenance training to the Ministry of Peshmerga on a MPVP at Mira Base in Erbil, Iraq.

- Increases proficiency of Peshmerga mechanics in vehicle maintenance performance to repair their vehicles to highest operational readiness standards – 40K+ training hours

Army Prepositioned Stock (APS) Programs

Amentum supports the readiness of our forces by maintaining and storing their equipment in forwarding locations – prior to deployment we provide kitting, testing, and repair services.

- Stores and maintains 114,000+ pieces of equipment in Europe
- Stores and maintains 3,800,000+ pieces of equipment in Southwest Asia

Army Depots and Arsenals

Amentum provides the largest labor augmentation services to the U.S. Army's depots and arsenals.

- Supports various Organic Industrial Base activities at various locations with ~1,200 employees
- Provides services at RRAD, CCAD, SIAD, TYAD, ANAD and Watervliet Arsenal

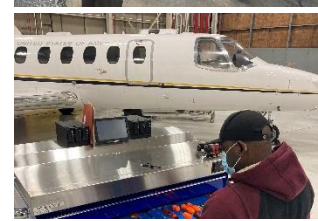

Fort Rucker Rotary Wing Flight Training, Support, and Services at U.S. Army TRADOC

Amentum provides education and training for initial-entry aviators from the Army, Air Force, and allied nations who are learning to fly rotary-wing aircraft, as well as for military aviators earning their designation as instrument flight examiners.

- Trained 30K+ US Air Force & Army aviators; trains 1,400+ annually
- Trained 5K+ allied aviators from the UK, UAE, and more than 50 other countries
- Conducts 480 training sorties and flies more than 500 hours per day

Army C-12 Transport

Amentum provides worldwide program management, CLS, engineering, component repairs, maintenance, paint, modifications, service bulletin kits and support, field team support, and other non-routine over-and-above tasks and materials for government-owned fixed-wing fleets performing transport aircraft missions.

Amentum is a premier global technical and engineering services partner supporting critical programs of national significance across defense, security, intelligence, energy, and environment. We draw from a century-old heritage of operational excellence, mission focus, and successful execution underpinned by a strong culture of safety and ethics. Headquartered in Germantown, Md., we employ more than 34,000 people in all 50 states and perform work in 105 foreign countries and territories.
